

# THREAD TERMINALS

Stainless Steel - AISI 316

The wide range of threaded Blue Wave terminals are engraved with wire size and swage depth making them easy to use when pressing or swaging them onto the wire. The terminals are available with left handed or right handed threads, and also, on request, with split pin hole (see details below on this page), or UNF thread! Threaded terminals are used to put tension on a wire, either with the help of nuts and washers or as part of a rigging screw.
